The background of the page is white and features several large, stylized geometric shapes in shades of orange and yellow. These shapes are composed of parallel lines and angles, creating a sense of movement and depth. One large shape is in the top right corner, another is on the left side, and a third is in the bottom right corner. The shapes are layered, with some appearing to be in front of others, creating a 3D effect.

TURAN ammunition

In 1997, Turan Ltd. production of shotguns for initiated the pro-sale in Üzümlü. In 2007, responding to advancements in the hunting industry, Turan established an underground gallery-type explosive storage and production facility to manufacture blank and shotgun cartridges.

In 2018, Turan diversified its investments into the defense sector by opening the production of pistols and rifle ammunition to private manufacturers. Turan acquired NATO Facility Security Clearance for ammunition production, enabling the establishment of an ammunition manufacturing facility.

In 2019, Turan commenced the production of 9x19mm pistol cartridges. Through the production of high-quality 9x19mm pistol cartridges, Turan achieved CIP and NATO certifications, leveraging state-of-the-art equipment and well-trained personnel. Consequently, Turan entered numerous domestic and international markets and made investments in small arms ammunition.

In 2021, to broaden its product range, Turan acquired production permits for 5.56x45mm, 7.62x39mm, 7.62x51mm, and 300 Blackout, leading to the establishment of additional facilities and production planning. Simultaneously, Turan increased its annual 9x19mm production capacity to 50 million.

As of 2023, Turan annually produces 50 million 5.56x45mm and 180 million 9x19mm. Presently, Turan operates two production facilities, a ground explosive storage facility, an underground explosive storage facility, and a quality department spanning a 150,000 m² area with a 250-meter ballistic range.

TURAN's mission is to consistently deliver the highest quality, stay abreast of technological advancements, and fully, promptly, and affordably meet the needs of its customers on a global scale. TURAN is capable to produce ammunition according to CIP, SAAMI standards for civil consumers and NATO standards for law enforcements and military forces. Turan has all quality certifications to maintenance the best quality and consistency.
